"The comprehensive solutions to your problems, which quite accurately reflect those appearing on the AP exam, were appreciated and invaluable to

the students." Michael Palermo / John Dewey HS, Brooklyn, NY "I really like your books (AP Statistics, Calculus AB, and Calculus BC). They are wonderful preparation for the AP."

AP Statistics Test Prep | D&S Marketing

Actually, no and yes. You can get a job in marketing without calculus. In fact, you could get a job in marketing without any higher order mathematical knowledge at all. However, knowing calculus could only help you with marketing or any kind of job, for the simple reason that it teaches you how to solve problems.

Do I need to know calculus for marketing? - Quora

In this section we will start off with a quick review of parameterizing curves. This is a skill that will be required in a great many of the line integrals we evaluate and so needs to be understood. We will then formally define the first kind of line integral we will be looking at : line integrals with respect to arc length.

Direct Marketing is used in businesses such as Beachbody, Mary Kay, or other mid level marketing companies. Math, specifically calculus is used to determine where certain advertisements reach and how often they should be sent. When you advertise in these companies, you want it to reach a far audience and often.

Calculus In the World of Marketing by Lauren Price on ...

$dS/dt = 24 - S/25$ (e). (4 points) Write an initial value problem relating $S(t)$ and dS/dt . Solve the initial value problem. SOLUTION: The initial value problem is $dS/dt = 24 - S/25$, with $S(0) = 800$. Since this differential equation is separable, we can solve by separating and then integrating: $\int \frac{1}{25 - S} dS = \int \frac{1}{25} dt$...
