Novation Launchkey 49 all messed up. Post by yur2die4 » Mon Jul 25, 2016 4:13 am That might be a little more complicated. The pads are probably programmed to launch clip slots in session view. They probably send note data, but because of what they are set to do, they won't trigger drums while the controller functions as a control surface.

### Does the novation launchkey 49 work well with reaper? : Reaper

Launchkey [MK3] controllers are available in 25-, 37-, 49- and 61-key variants, making it easier than ever for creators to pick the size that suits. For the first time in the Launchkey range, there's a 37-key model, which answers the requests of music makers who want a compact controller large enough for two-handed keys work.
