Decide on your manual's layout. There are several important ways you can streamline your manual. You should place a bold heading at the start of each section with each word capitalized. For instance, "Setting Up Your Device," "Operating Your Device," and "Troubleshooting" could all be bold section headings.

Try this approach: tell your staff that you're putting together a procedures manual, and how creating the manual will benefit everyone. Give them several weeks or longer to track their responsibilities and send a written document to a shared folder. Once your workers submit their documents, you'll have a starting point for a procedures manual.
