The Globalization and Development Reader

Political geography examines geography's influence on political systems and globalization, which
are related to issues concerning the development of borders and the distribution of government
types.

Globalization and Development - GitHub Pages

Development and Globalization <http://www.globalization101.org> PAGE 26 The ebb and flow of
natural resources in a geographic area can greatly affect how societies develop. For example, while
natural resources can benefit a country, in some cases, the absences of resources can also further
development.
